

Together Me And You

This is a song that I sing for you
sing for you, sing for you.
This is a song that I sing for you.
Now you can sing it too.

This is a song that we sing together
sing together, sing together.
This is a song that we sing together.
Now let's try something new.

This is a dance that I dance for you
dance for you, dance for you.
This is a dance that I dance for you.
Now you can dance it too.

This is a dance that we dance together
dance together, dance together.
This is a dance that we dance together.
Now let's try something new.

This is a smile that I smile for you
smile for you, smile for you.
This is a smile that I smile for you.
Now you can smile it too.

This is a smile that we smile together
smile together, smile together.
This is a smile that we smile together.
Together me and you.

These are the things that we do together
do together, do together.
These are the things that we do together.
Together me and you.

These are the things that we do together
do together, do together.
These are the things that we do together.
Together me and you.

Together me and you.
Together me and you.
